Office of Statistics and Reporting (OSR)

#### 1. Admissions to SEH

<sup>\*</sup> Number of admissions to SEH inpatient program, including transfers from outpatient to inpatient program.

# 2. Discharges from SEH

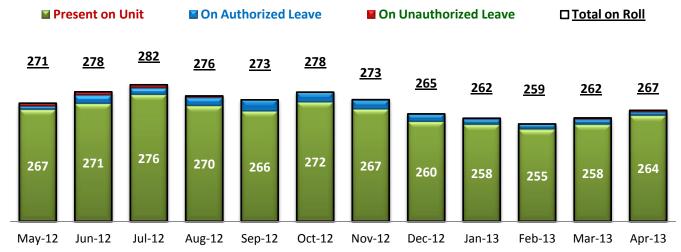

Civil

■Forensic

**Total** 

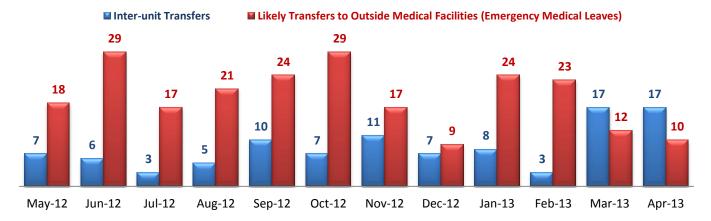

# 3. Average Daily Census

<sup>\*</sup> Data above is the daily average number of individuals counted at 11:59 PM every day during each month.

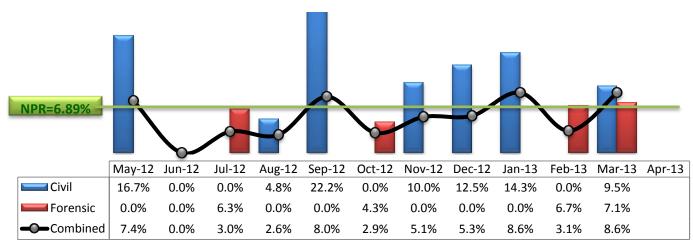

<sup>\*</sup> Number of discharges from SEH inpatient program, including transfers from inpatient to outpatient program.

#### 4. Transfers

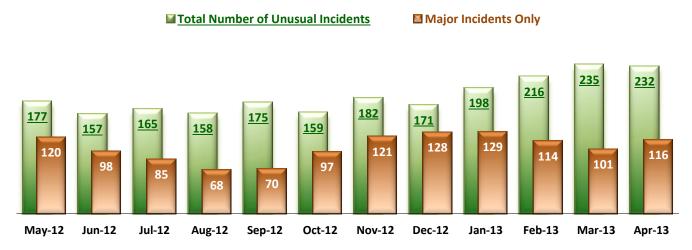

<sup>\*</sup> Number of inter-unit transfers that occurred during month and number of emergency medical leaves that were initiated during month.

# 5. 30-Day Readmission Rate

<sup>\*</sup> Percent of discharges that returned to SEH within 30 days of discharges. It does not include those who may have been re-hospitalized at another psychiatric facility. This measure requires 30-day observation following discharge.

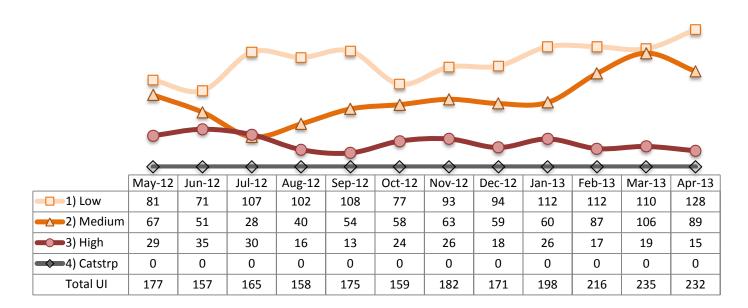

## 6. Unusual Incidents

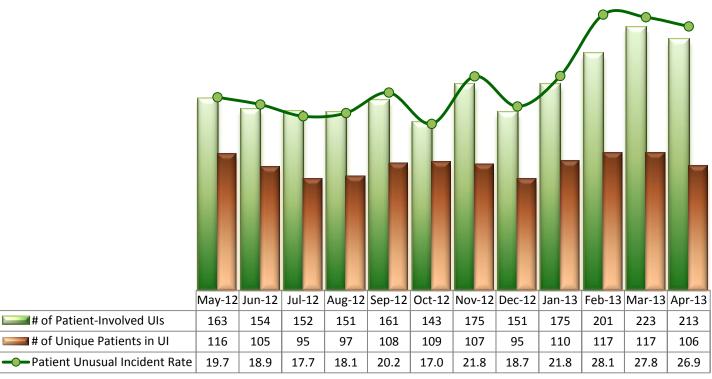

<sup>\*</sup> Numbers above represent all types of the unusual incidents (UIs) that were reported to the Risk Manager by PRISM publication date, including those that did not involve any patients.

<sup>\*\*</sup> NPR: National Public Rate as of June 2012 published by NASMHPD Research Institute in January 2013.

# 7. Unusual Incidents by Severity

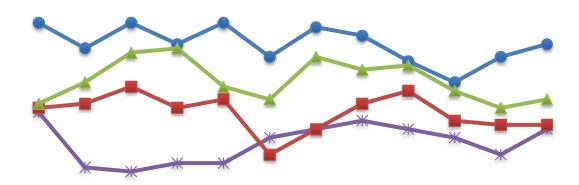

## 8. Patient-Involved Unusual Incidents

<sup>\*</sup>The total number of patient-involved UIs counts only those incidents that involved at least one or more patients. Some patients may be involved in more than one incident and the number of unique patients does not double count them. The patient UI rate is the number of patient-involved unusual incidents reported for every 1000 inpatient days.

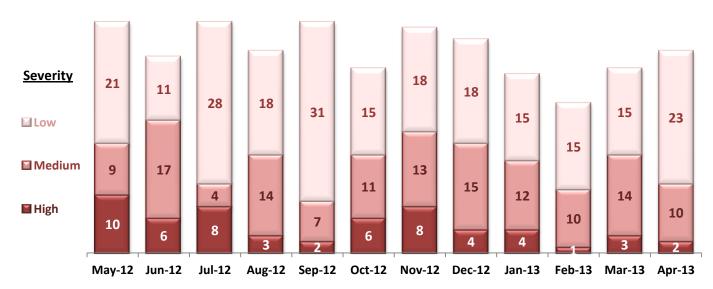

# 9. Selected Types of Incidents

	May-12	Jun-12	Jul-12	Aug-12	Sep-12	Oct-12	Nov-12	Dec-12	Jan-13	Feb-13	Mar-13	Apr-13
Physical Assault	40	34	40	35	40	32	39	37	31	26	32	35
Psych Emergency	19	6	5	7	7	13	15	17	15	13	9	15
<b>Fall</b>	20	21	25	20	22	9	15	21	24	17	16	16
Injury	21	26	33	34	25	22	32	29	30	24	20	22

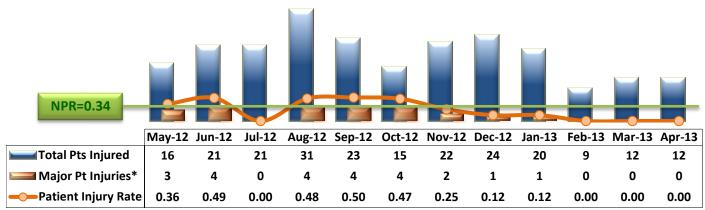

<sup>\*</sup> These are incident types that are frequently reported. Some incidents may be counted in multiple categories. For example, a physical assault incident that accompanied psychiatric emergency and injury is counted under psychiatric emergency and injury as well as under physical assault. Injury is broadly defined to include any type of injuries regardless of the cause or severity level.

# 10. Physical Assaults by Severity

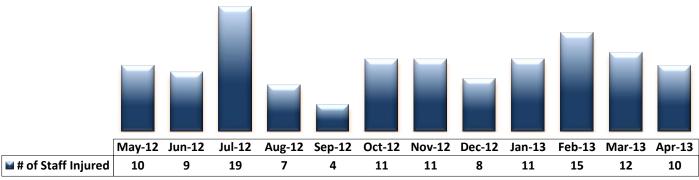

<sup>\*</sup> Any physical assault that accompanies a code 13 or results in extensive injury needing off-unit treatment or transfer to ER is considered to be high severity, any physical assault that causes a minor injury that can be treated on unit is considered to be medium severity, and physical assault events that result in no injury are considered to be low severity.

# 11. Patient Injuries

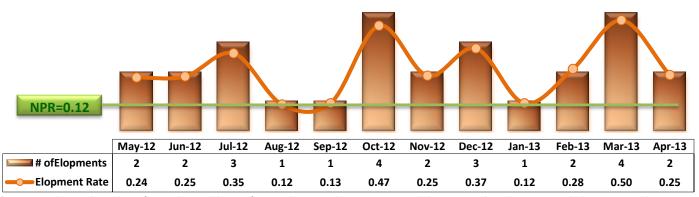

<sup>\*</sup> Injury is broadly defined to include any type of injuries regardless of the cause or severity level. The total number of patients injured represents all of the reported injuries including minor injuries treated with first aid alone. However, the patient injury rate considers only the number of patient injuries that required beyond first-aid level treatment based on the NRI definition and the patient injury rate is the number of 'major' patient injuries per every 1000 inpatient days

## 12. Staff Injuries

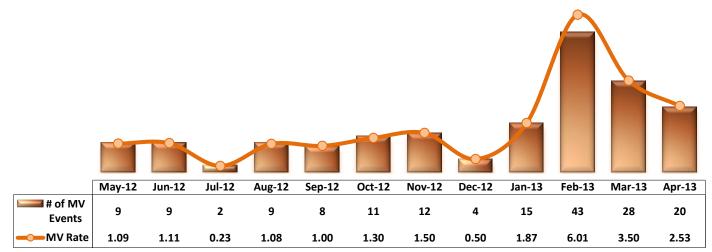

<sup>\*</sup> Injury is broadly defined to include any type of injuries regardless of the cause or severity level. The total number of staff injured represents all of the reported staff injuries including minor injuries treated with first aid alone.

## 13. Elopements

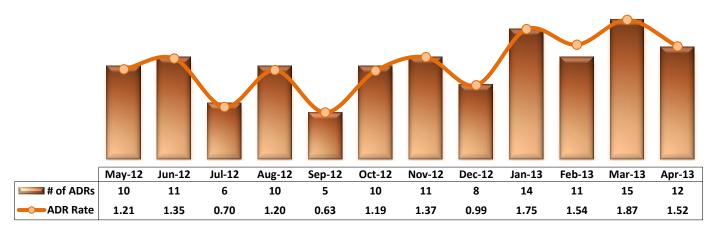

<sup>\*</sup> It counts the total number of unauthorized leaves for any duration that were initiated during month and were recorded in Avatar. The elopement rate is the number of those unauthorized leaves that occurred for every 1000 inpatient days.

# 14. Reported Medication Variance Events

<sup>\*</sup> MV Rate: Number of reported medication variance events that occurred for every 1000 inpatient days.

# 15. Reported Adverse Drug Reactions

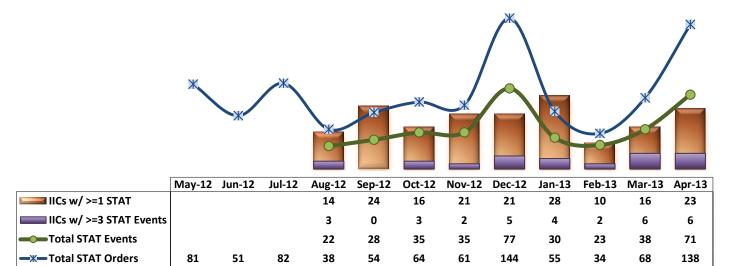

<sup>\*</sup> ADR Rate: Number of reported adverse drug reaction events that occurred for every 1000 inpatient days.

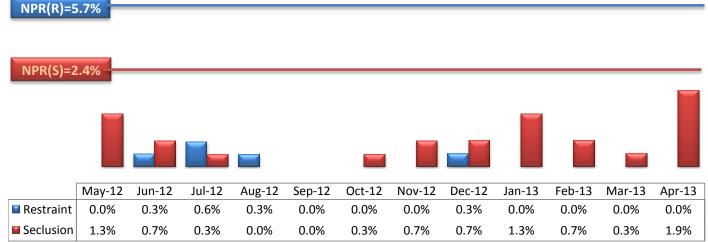

## 16. Percent of Missing Documentation on Med-Administration

#### 17. Number of STAT Events and Individuals Involved

### 18. Percent of Patients Restrained or Secluded

<sup>\*</sup> Percent of unique patients who were restrained at least once and percent of unique patients who were secluded at least once. The denominator includes all individuals who were served in care >=1 day during month.

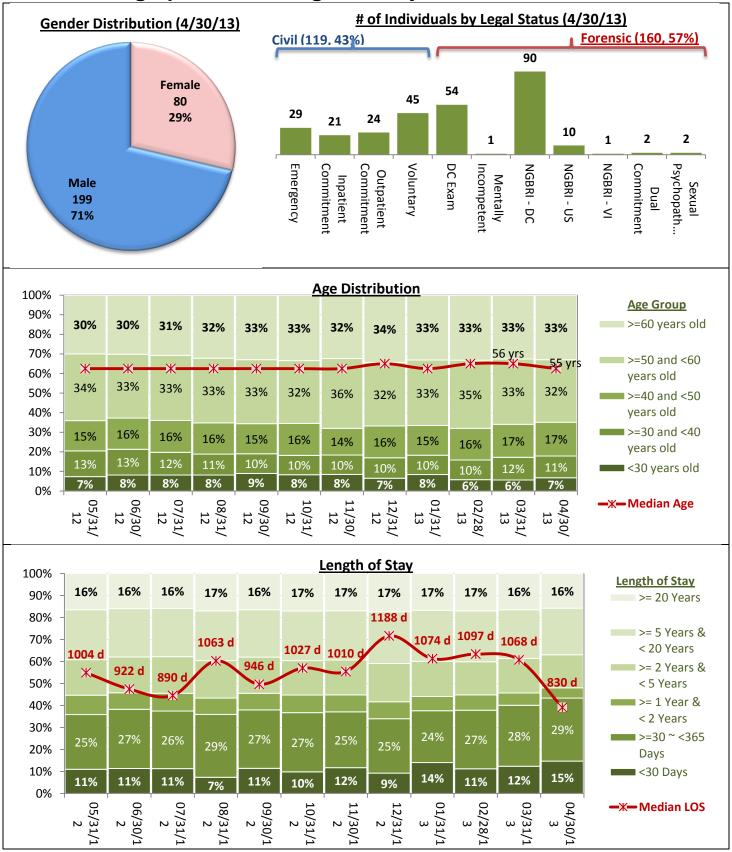

# 19. Restraint Hours Rate & Seclusion Hours Rate

				_							_	
	May-12	Jun-12	Jul-12	Aug-12	Sep-12	Oct-12	Nov-12	Dec-12	Jan-13	Feb-13	Mar-13	Apr-13
■ Restraint	0.000	0.005	0.001	0.010	0.000	0.000	0.000	0.002	0.000	0.000	0.000	0.000
■ Seclusion	0.031	0.057	0.005	0.000	0.000	0.038	0.016	0.049	0.043	0.042	0.005	0.054

<sup>\*</sup> Restraint/Seclusion Hours Rate: Number of hours spent in restraint/seclusion for every 1000 inpatient hours.

# 20. Demographics and Length of Stay

#### PRISM Data Tables 2013-04.xlsx - Census & AD

<sup>\*</sup> This is the average number of inidividuals served on a given day for the respective month. Due to rounding from average calculation, numbers from its subcategories a, b, & c may not add up to the total number on this row.

<sup>\*\*</sup> It counts the number of patients who are present on the unit and excludes those on authorized or unauthorized leave at 11:59pm on a given day.

<sup>\*\*\*</sup> Number of patients returning within 30 days of discharges that occurred during month.
