

On October 1, the DC Department of Mental Health & the  
Addiction Prevention Recovery Administration are the new

# Department of Behavioral Health.

New Name!  
Better Coordinated  
Care!  
Same Commitment  
to Quality Services!

Please know that your benefits are the same. You don't need to make any changes to keep seeing your provider. We want to hear from you about the merger. Talk with your community support worker or counselor about your ideas or if you have questions. Look for our survey in October.
